

## RESEARCH IN PROGRESS SEMINARS

This series connects lab and clinical researchers to accelerate discoveries into care. Experts share real-time findings to spark collaboration and impact. Got a speaker or topic in mind? Email us at [cfccadmin@hs.uci.edu](mailto:cfccadmin@hs.uci.edu).

**Kai Kessenbrock, PhD**

Associate Professor, Biological Chemistry, UC Irvine School of Medicine

## **Understanding the Role of the Cellular Microenvironment in BRCA1-Driven Breast Cancer Initiation**

**Wednesday, August 6, 2025 | 12:00–1:00 PM**
