Subject: Help Support Tracy

Dear Member,

One of our member is in dire need of the entire Texas Windstorm Insurance Association help to save her daughter who is critically ill and needs to be operated urgently. It will be appreciated if we all can join hands together as one family and save her daughter Tracy. A fundraising campaign has been created and we are relying on the entire family to come together and help her raise the funds needed. Below is the fundraising campaign, thank you for your support in advance. No amount is too small and any amount donated out of the kindness of your heart will be highly appreciated, you can also help by sharing the campaign.

Ruth would like you to support
Help "Support Tracy"
by making a donation and helping spread the word

Tracy is a 3 year old girl who desperately needs your help. In May 2017, Tracy was diagnosed with a rare disease known as Cholesteatoma, which causes a tumor to grow behind her ear drum.

This life threatening tumor is growing daily and needs to be operated on urgently before it eventually grows into her brain. A pioneering operation costing 12,000 is available privately. This operation will not only lasers the tumor away, but it will also reduce the risk of Tracy needing further treatment.

Tracy wants to be a doctor when she grows up. Please help us raise the money for Tracy's operation so that she can live a normal, healthy life and fulfill her dream.

Please share your prayers and financial support to encourage Tracy in this battle. Every dollar counts and any amount donated will be highly appreciated.
